Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed January 21, 2009 have been fully considered but they are not persuasive.

Applicant asserts that in the embodiments shown in Figures 18B and 22B of Feldman the spacers have two projections, one on each side of the spacer sheet. The Examiner respectfully disagrees. In regard to the embodiment shown in Figure 18B the spacer has only one projection, pictorially identified on page 4 in the previous Office action. The spacer also a second part at the front end of the spacer, which is adjacent channel 506. However, this is not a projection from the spacer as it is clearly separate from the main spacer body, although it has a spacing function. In regard to the embodiment shown in Figure 22B the Examiner acknowledges that the spacer has two projections. However, the first projection, pictorially identified on page 5 in the previous Office action, is the only projection at a side of the spacer sheet. The second projection (587) is not at a side of the spacer sheet, that is along a longitudinal edge of the spacer, but near the middle of the spacer sheet.

Applicant asserts that the capillary action in Feldman "has nothing to do with the feature of the present invention." However, since capillarity is not being claimed the

Examiner does not understand how any difference in capillary action between Feldman and Applicant's invention is relevant to patentability of the claims.

Applicant asserts Feldman does not disclose "an inside corner part." Webster's Dictionary defines a corner as, "the point at which converging lines, edges, or sides meet." The portions of the spacers identified in Figures 18B and 22B of Feldman in the previous Office action are corners as commonly understood. "Terms used contrary to their ordinary meaning must be clearly redefined in the written description." MPEP 2173.05(a).III.

For these reasons all of the rejections are maintained.

Final Rejection

2. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to ALEX NOGUEROLA whose telephone number is (571) 272-1343. The examiner can normally be reached on M-F 8:30 - 5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, NAM NGUYEN can be reached on (571) 272-1342. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
